	operation
(add) more than, increase answer: the sum	+
(Subtract) decrease, minus, less answer: difference	-
(Divide) split/share into equal groups answer: quotient	$\frac{\div}{\div}$
(Multiplication) times, add equal groups answer: the product	x

My challenge Today

Make a situation/problem to represent these equations

1) $3x = 24$

2) $\frac{x}{5} = 4$

3) $x + 7 = 9$
