

May 11, 2016

Dear Parents of students in M.O.S.P. (Mr. Brown's Div. 9):

We are pleased to offer a class visit to the Shaw Ocean Discovery Center as part of the Ocean Studies classroom on **Tuesday June 14, 2016**. We will learn about marine mammals through hands-on activities involving echolocation, photo-identification, and communication. This program will address conservation issues of killer whales in our local area.

We will leave from the classroom at 9:00AM. Parents are welcome to remain with us and participate in the program. Leaving the Ocean Discovery Centre at 11:30, we will walk south to Tulista Park in Sidney. Students will eat their bag lunch and have an outdoor activity on the Sidney seafront. Our drivers will bring students back to the school at ~1:30pm from Tulista Park. Dismissal will be from Monterey School.

There will be no cost for this opportunity; it has been included in your MOSP payment this school year. But we will **need** the help of parent **drivers**. Please indicate below if you can help drive for this excellent learning opportunity.

Thanks,

Mr. Brown

==== ✂ ===== ✂ ===== ✂ ===== ✂ ===== ✂ =====

I give permission for my child to participate in the class trip to **the Shaw Ocean Discovery Centre** as described above.
